

2020 Summer Student Internship Project Team

Our summer internship will accelerate your learning and development by providing you with a strong foundation to build your career. Our interns work alongside and under the supervision of our project managers and will also interact with team members in customer service, our sales department, and our trade partners. The program provides students with a unique perspective on our integrated service lines of next generation connected technologies. As a program participant, you will also partake in learning and development activities designed especially for you. Students will have the opportunity to utilize the education and skills learned in the classroom and apply it to the real-world in an environment that is collaborative, team-centric, and has an execution-oriented culture focused on delivery.

Our summer internships are structured as paid, entry-level positions that expose interns to many applicable skills and build proficiencies in the life cycle of fiber and wireless technologies. We look for motivated individuals that are interested in going the extra mile and have a strong work ethic.

We believe that our people are our most valuable resources. We invest in developing our employees on an individual level because we know that each individual's personality and talent will trickle throughout our organization — to our customers and beyond. We are a learning team actively looking for stellar people to help shape, grow, and continually improve us. If you feel you could contribute we'd love to meet you!

We offer our interns a chance to experience the following:

- Gain valuable hands-on experience
- Learn solid practices from an industry leader
- Build a professional network by fostering relationships with team members and local trades
- Contribute to our company vision and mission
- Earn an income

Role Description (Roles & Responsibilities): *Performing under the direction and supervision of the Project Manager, the intern will assist/perform the essential job duties and functions as listed below:*

- Valid driver's license and reliable transportation

Why Join Us?

OUR MISSION

With all that we believe and everything that we say and do, we strive each and every day to challenge the status quo — climbing to gain new perspectives and new footholds.

We transform obstacles into opportunities while answering opportunity with an impassioned spirit of innovation. We are driven to perform with a solid team, scalable processes, industry-leading technologies, and a focused approach to serve our customers for the greater good.

We reach out to connect underserved neighbors, communities, and businesses with faster, safer, and more reliable Internet and connected technology experiences. We are purposed with delivering next generation fiber-fast Internet technologies as reliably as running water— everywhere, for everyone.

OUR VALUES

- **Integrity** - Working with Nexstream is as reliable and transparent as running water. We've chosen to separate ourselves from the industry to give you the premier treatment you deserve. We happily take the complexity out of technology so that you can focus on the things in life that matter to you.
- **Innovation** - Nexstream's service-focused approach is backed by a solid team, scalable processes, and industry-leading technologies. We connect communities and households to more opportunities for growth and better solutions to improve lifestyle quality.

- **Customer Service** - We are boldly committed to ensuring that you, our customer, receive the highest quality products, services, and customer service possible. Call us or visit us at our office during our business hours. A smiling face will be there to greet you and handle your concerns with ease.
- **Community** - We care about our customers and our community. Having a more reliable Internet experience expands the realm of opportunity with possibilities. We contribute to our community's growth with helping hearts through our current developments and other outreach endeavors.
- **Teamwork** - A strong team can transform obstacles into opportunities and challenge the status-quo. We believe building our culture is the foundation of delivering our best product to our community. We inspire passion, creativity, and innovation throughout our team and invest in personal growth at the individual level, believing it is the best way to strengthen our core as a company.
